CHAPTER IX
CONTRACTS

IX-2000 DIGITAL FLEX SWAPS GOLD CONTRACT

(a) Scope and Underlying

These Contract Rules will govern the trading on the Cantor Futures Exchange, L.P. (the "Exchange") of the DIGITAL FLEX SWAPS GOLD CONTRACT (the "Contract"). Clearing of the Contract will be governed by the rules of the Cantor Clearinghouse, L.P. (the "Clearinghouse"). These Contract Rules are established pursuant to and constitute "Contract Rules" under Rule I-5 of the Rules of the Exchange and constitute "Contract Rules" Under Rule I-7 of the Rules of the Clearinghouse. Capitalized terms used, but not defined herein, have the meanings ascribed to them in the Rules of the Exchange or the Rules of the Clearinghouse, as applicable.

(b) Calculation of the Index

The Gold Index will be calculated by the Exchange continuously taking the last eight bid and the last eight offer spot quotations for each gold price received by the Exchange, then removing the two highest bids and two highest offers and removing the two lowest bids and two lowest offers received by the Exchange from recognized distributors of precious metals price information or dealable quotations from independent third-party spot market participants, then calculating the arithmetic mean of the remaining eight values and rounding to the second decimal place. Notwithstanding the above, the Exchange may determine the Index value, in its sole and absolute discretion, using the best available indicative spot gold prices available from recognized distributors of precious metals price information.
